

Enroll in any new compliance related service from Compass and
get the first month free.

With rampant cyber threats & complex compliance regulations, it's more important than ever to understand your vulnerabilities & **ensure your practice is fully compliant & secure.**

If your practice does not comply with the law, you could face negative consequences, including significant financial penalties.

Did you know that **the health industry loses about \$6 billion per year** due to data breaches?

Obviously, the need for your dental practice to be HIPAA compliant is critical.

We want to make sure you start 2017 safe, secure and compliant, so when you enroll in any new compliance related service – **you get the first month free.**

The compliance services listed below are HIPAA related, **as well as** best practices from a business standpoint.

Contact your account manager to review your current services & discuss what additional compliance services you could benefit from.

Call your account manager today to get your first month(s) FREE:
(866) 336-8727

Securing patient information & reducing the risk against breach or loss with our compliance related services **has never been easier.**

Now is the perfect time to navigate to better dentistry-specific technology.

Contact Compass Network Group, your dental IT specialists, to take advantage of this special offer.
